

Please stop unwanted telephone solitation.

During the recet election I received unwanted calles from both parties. There is no way to tell a recording to stop or remove me from their phone list.

Last night at 8:15PM I received a recorded call from some debit company. Once again with no way to tell them to never call me again.

If you can not stop these unwanted calls - then make the phone company offer me the free option of blocking these unwanted calls. This would require the offenders to use a "real" caller ID and not "Private Caller" or "Out of the Area".

Thank-you
